First Quarter™

Impression Material

Super Hydrophillic VPS Impression Material Set in 1-1/2 minutes.

First Quarter™ F.S. [fast setting (1-1/2 minutes)] impression material is a super hydrophilic VPS impression taking systems that features a unique 1-1/2 minute setting time.

As most impressions are that of single units, this material makes a lot of sense to clinicians who desire a faster setting impression taking system for cases that are single units or challenging due to the presence of excessive blood and saliva.

	2/pk 2-50ml Ctg/6 Tips	4/pk 4-50ml Ctg/12 Tips	Econo Kit 24-50ml Ctg	SuperEcono 96-50ml Ctg
Heavy Body	90913	90809	90810	90811
Light Body	89277	89272	89462	90731
Monophase	89386	89387	80008-01	90729
Monophase Choco-Mint	90901	90900	90902	90903

FEATURES:

- Super Hydrophilic Formulation
- Very High Tear Strength
- Superior Dimensional Stability
- Can Be Sterilized
- Will not Distort in Solution
- Snap Sets in 1-1/2 Minutes
