# TempoCemID

**It Stands Out by Blending In.**

 **DMG**

# Invisible to Everyone But You.

TempoCemID delivers standout performance by blending in. This esthetic, temporary cement is invisible when you want it to be, yet detectable when you need it to be.

**Invisible under restoration:** Formulated for optimal transparency, TempoCemID will never impact the shade of your temporary restoration, making it an ideal choice for both posterior and anterior restorations alike.

**Detectable for easy excess removal:** Unlike other esthetic temporary cements, excess TempoCemID is readily detectable (even below the gum line) and can often be removed in one piece. Non-eugenol TempoCemID flows and mixes easily, doesn't stick to instruments and is indicated for long-lasting temporaries.

**See your esthetic worries vanish before your eyes with TempoCemID.**

## Indications

Temporary and semi-permanent luting of temporary crowns, bridges, inlays and onlays. Temporary and semi-permanent luting of implant-borne temporary prosthesis. Temporary luting of temporary veneers.

## PRODUCT OVERVIEW TempoCemID

**Package:** 1 Smartmix-syringe @ 5 ml  
10 Smartmix-Tips

REF 213200

## Good Reasons:

- ↗ Invisible under restorations, yet detectable for excess removal
- ↗ Beautiful esthetics thanks to optimal transparency
- ↗ Easy one-piece removal of excess
- ↗ Optimal adhesion with easy removability
- ↗ Eugenol free
- ↗ Excellent ease of use, no sticking to instruments
- ↗ Flows and mixes easily
- ↗ Perfect for long-lasting restorations
