Venus® Supra

The simple way to high gloss

Long-lasting aesthetics are what Venus does best. With the polishing system Venus Supra dentists add a wonderful high gloss to the finished composite restorations.

Venus Supra now comes with new benefits:

- » **Two new twist shapes:** The Twist Disc is ideal for polishing results on various composite surfaces. The Twist Brush achieves perfect polishing results on e.g. occlusal surfaces with easy access to deep fissures.
- » **New separate refills:** Pre – and high-gloss polishers can now be ordered separately. This helps optimize stock-keeping and re-order cycles.

Giving a hand to oral health.

KULZER
MITSUI CHEMICALS GROUP

Venus® supra – the long-lasting high-gloss polisher system:

- Two-step polishing system consists of pre- and high-gloss variants in different shapes
- Made of silicone highly filled with microfine diamond powder
- Tailor-made for Venus composites such as Venus Diamond ONE and Venus Pearl ONE
- Universal solution for all anterior and posterior restorations, giving them an aesthetic shine and smooth surfaces
- Autoclavable and reusable

New twist shapes

- Ease polishing and adaptation to natural tooth morphology

New refills

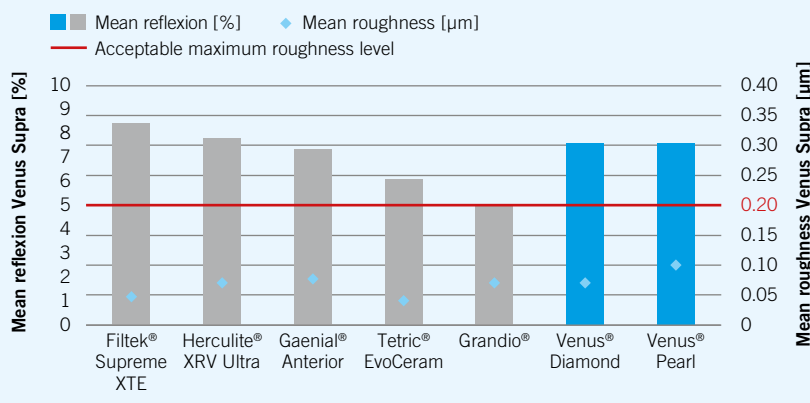

- Optimise stock keeping and reorder cycles as pre and high-gloss polishers can be ordered separately

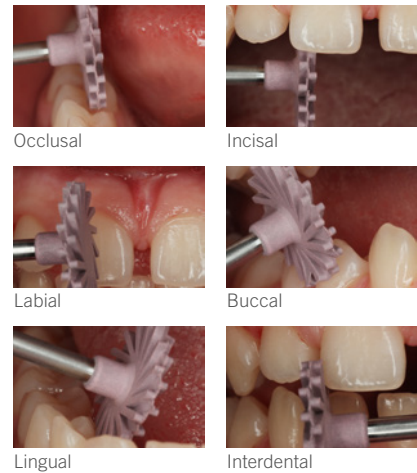

Ulf Krueger-Janson

"I've been using Venus supra polishers for over 13 years. They are indestructible and enable the best high gloss that I have ever been able to achieve. Simply great!"

Venus supra polishing leads to excellent polishing results

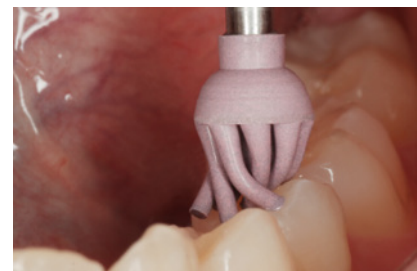

Versatility: Twist Disc – ideal polishing results on various composite surfaces
