

Retraction Paste

Your uncomplicated impression aide.

DMG Retraction Paste

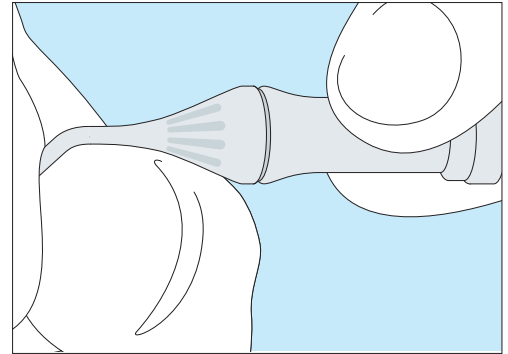

Your uncomplicated impression aide.

Every accurate restoration relies on a precise impression. DMG Retraction Paste is particularly helpful here:

Temporary sulcus widening has never been this easy or this effective – and it includes an astringent effect on the gingiva.

The newly developed compule made of special resin can be bent just as desired. You can be shaped to your preferred bend and work well everywhere in the patient's mouth.

The homogeneous consistency of DMG Retraction Paste is optimally adjusted. Thanks to its high-level stability, the paste remains in the spot where it was applied and once there, it takes effect optimally.

The cannula is easily adaptable to every situation.

Good reasons

- Flexible cannula for simplest application
- Remains secure in the sulcus thanks to optimum consistency
- Made from a base of natural alumina
- Good color contrast
- Fresh mint taste

Indications

Temporary marginal gingival retraction and establishment of a dry sulcus environment

Packaging

25 Compules @ 0.37 g
